'I highly recommend Terry Ingham. He is continually training and developing himself with the most up-to-date skills I have developed and is one of my internationally licensed NLP practitioners'

Richard Bandler co-creator of NLP

'Dear Terry, I would like to thank you for the excellent work you completed in October last year in developing the competence of our Training, Development and Nationalization Team, we now have over 80 relationships established within our Joint Venture. The initial success of the programme is receiving plaudits from throughout the Venture and from the Kazakh authorities. Earlier this week, per the request of our General Director, the KPO programme has now been nominated for our 'Chairman's Award' for its contribution to the nationalization process. Thank you once again and we hope to see you again in Kazakhstan soon.' - **Graham Murray, Head of HR Operations KPO, Kazakhstan**

'Terry is passionate about encouraging people to make the best life they can by overcoming their limiting beliefs. By encouraging me with my fledgling business my goals have all been exceeded, stretching me to get out of my comfort zone'. – Jan Rilatt, YouPlus Coaching, Lacey, Lincolnshire

'I found this course very useful as it will help me gain the knowledge of communication processes and rapport building. I would recommend it to all people who have to communicate with others'.

Zulfiya Muzafarova, Development Project Co-ordinator, BP Kazakhstan

'At the age of 17, I was involved in a car accident which left me very anxious about car travel, especially on motorways. This anxiety has increased over the years and has become very problematic when faced with long car journeys. Through the coaching sessions I have had with my coach I have been able to re-programme the thought processes I had developed and associated with car travel and for the first time in 20 years am now a confident, relaxed traveller'. Many Thanks. **Martin McMahon, Grimsby**

'Terry used a light, reflective state to encourage visualisation of my problem, which was a fear of heights. He helped me to use my mental state more consciously through replaying my experiences and giving me strategies I could try myself. The sessions enabled me to feel strongly empowered with regard to my own state of mind. I have since been up the Leaning Tower of Pisa which has always been one of my dreams - Thank you'.
